In the matter of

Ammendment of §73.202(b),
Table of assignments,
FM Broadcast Stations.

March 13, 1994

(Vail, CO)

PETITION FOR RULEMAKING

1.) The following is a petition to the Federal Communications Commission, Washington, DC. regarding the FM Table of Assignments, 73.202(b).

2.) This petition has been submitted by Ryan B. Smith, and Jennifer Tufty (herein called "petitioners").

3.) The petitioners respectfully urge the Commission to amend the FM Table of Assignments, so that said table includes channel 237-A at Vail, CO, as that community's second FM Broadcast station.

<u>City</u>	<u>FM Channel - Present</u>	<u>Proposed</u>
Vail, CO	284 C1 104.7 MHz	
Vail, CO		237 A 95.3 MHz

4.) It is the petitioners' intent to build an FM radio station at Vail, CO.

5.) **ALLOCATION STUDY.** Having conducted an allocation study in order to determine which FM channel(s) may be utilized at Vail, the following appears to be evident:

Channel 237A can be used in Vail without conflict to any existing or proposed stations/allocations. The channel is clear enough to escape a site restriction.

6.) Table "A" indicates that channel 237A may be assigned to Vail, CO without causing interference/short spacing to any existing/proposed FM station. The table has been computed using the Commission's present rules and regulations.

The information contained in this petition is true and correct to the best of my knowledge.
